Target dry-skin concerns restore hydrated, healthy complexion

Formula Breakdown

①**Scientific multi-layer hydration:** Dual-action “inner-storage & outer-replenish” protection with 4D Hyaluronic Acid, thoroughly hydrates dry skin from within.

② **Skin-conditioning for root-cause improvement:** Long-term skin wellness powered by Giant Algae, Ecklonia & Hydrolyzed Red Algae. Ocean-sourced “liquid gold”.

③ **Dermal care & barrier reconstruction:** Achieve naturally resilient skin with Ceramide NP and EOP. Skin-identical ingredients to boost skin tolerance and resistance.

Formula Advantages

- Core complex of Hyaluronic Acids, Ceramides and Seaweed Extracts.

Target barrier damage at source; hydrate while reinforcing skin foundation.

- Multi-benefit performance

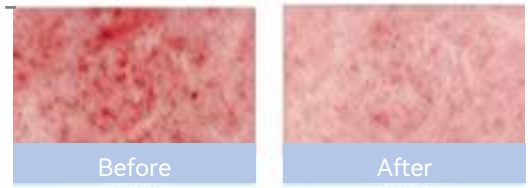

Combines repair, soothing and moisturizing to address multiple skin concerns in one bottle.

- Pleasant user experience

Light texture, melts into skin upon application, fast-absorbing. Suitable for sensitive skin and diverse skin types.

Collagen Peptide Anti-Wrinkle Serum

Lab Code	BS12044
Appearance	Colorless transparent liquid

Medical-grade salon-quality serum
Direct supply of human-homologous collagen, non-invasively boost skin collagen level.

Formula Breakdown

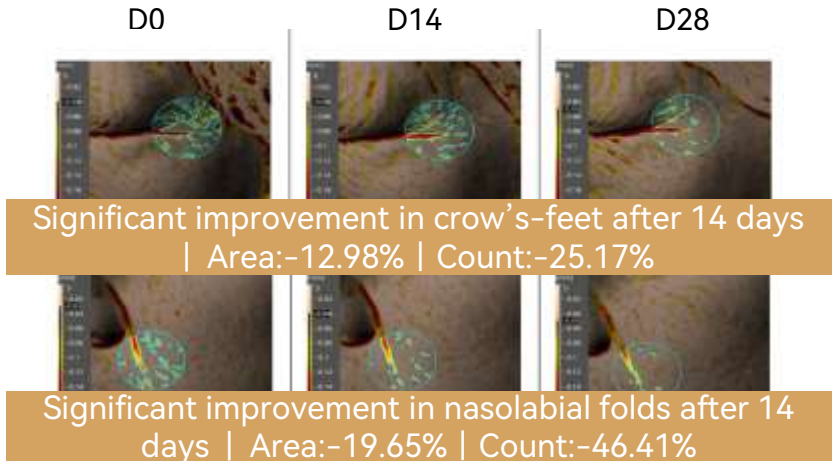

① NAD+ “cellular energy factor”-Nicotinamide Adenine Dinucleotide
NAD+ repairs mitochondrial damage, boosts cellular energy and enhances genetic repair.
② Topical “Botox-like complex”-Palmitoyl Pentapeptide-4 & Acetyl Hexapeptide-8
Dynamic-static synergy, powerful wrinkle busters.
③ Cyanobacteria Factor-Patented Glycosyl Glycerin; Fibronectin (next-generation EGF-like growth factor) for enhanced antioxidant effect.Power antioxidant duo: Ergothioneine & Agaricus Extract.
Delivers growth factors to adherent cells, promotes cell proliferation and skin regeneration; protects mitochondria against UVA damage.

Formula Advantages

① Nobel-prize-related NAD+ anti-aging theory to revitalize cells
Global anti-aging enters Cell 3.0 era. Energize skin cells and support skin longevity genes.

② Visible wrinkle reduction, perceptible anti-aging effect
Topical Botox-mimicking peptides modulate skin signaling and inhibit dynamic wrinkle formation.

③ Skin repair for overall skin condition improvement

One drop delivers highly-concentrated active nutrients to revitalize three-layer youthful skin pathways

Formula Breakdown

① Surface brightening — VCIP + Bi-Yeast Ferment Filtrate + Dipotassium Glycyrrhizate

Refine and brighten skin for even, clear, luminous complexion.

② Dermal firming — Bidens Tripartita Extract + Myo-Peptide + DNA Sodium

Botanical retinol-like ingredient activates basal membrane; anti-glycation firming effect. Sodium DNA repairs skin structure for 3-D lifting.

③ Collagen plumping — Squalane, Olea Europaea Fruit Oil, Camellia Albiflora Seed Oil, Mauritia Flexuosa Oil

Three precious plant oils nourish skin, replenish collagen, plump complexion and smooth fine lines.

Formula Advantages

① 4:1 golden water-oil ratio, fast-absorbing & non-greasy

More moisturizing than water, richer than essence, lighter than facial oil.

② Synergy of nature & technology

Targets three skin layers, building the system of “surface brightening-dermal firming-collagen plumping” to multiply skincare efficacy.

Formula Breakdown

① Repair- Squalane · Sebum-energy booster

High-purity squalane, highly compatible with human skin sebum. Melts instantly to fill gaps in stratum corneum, delivering primary energy for skin barrier.

② Stabilize- Phytosterols + Mauritia Flexuosa Fruit Oil · Barrier stabilizer

Phytosterols reinforce intercellular “cement”. Mauritia Flexuosa Fruit Oil rich in essential fatty acids double-strengthen barrier structure for tougher, more resilient skin.

③ Protect- Glycerides, Olea Europaea Fruit Oil & Grape Seed Oil · Sebum-like golden shield

Blend of three premium lipids builds biomimetic sebum film. Locks-in moisture while fighting oxidation, acting as a golden shield against external irritants to strengthen skin over time.

Formula Advantages

① Light-weight lipid extracts, non-clogging & non-heavy

Human-sebum-mimicking ingredients, skin-friendly and fast-absorbing, no greasy burden.

② All-in-one repair-stabilize-protect, 3-D rebuild skin self-repair capacity

Fundamentally enhance skin self-healing and make barrier stronger with use.

③ Clean formula, mild & low-irritation

Predominantly plant-derived lipids with high natural-source index.

Beyond Surface Hydration for Instant Dewy-Glow Skin Multi-Algae Moisturizing Revitalizing Lotion

Lab Code	BS11005
Appearance	Milky-white lotion-type

Build a “breathable” moisture-locking skin film

Formula Breakdown

① Triple-algae complex · Deep-moisture reservoir — Giant Algae + Ecklonia + Lactobacillus/Algae Extract Ferment
Harnessing deep-sea “green gold”, the synergistic triple-algae complex builds skin’s deep-layer water-storage system.

② Rich yet non-greasy · Light-feel moisture-locking film — Patented Glycosyl Glycerin + Sugar Isomer + Butyrospermum Parkii Butter
Breaks the stereotype “moisturizing equals sticky”. Delivers rich texture without post-application greasiness.

③ Dual-regulation of oil-water balance · Restore skin homeostasis — Pueraria Lobata Root + Anemarrhena Asphodeloides Root + Forsythia Suspensa Fruit + Madecassoside
Works for both dry and oily skin types, restoring comfortable oil-water balance with one bottle.

Formula Advantages

- **3-D deep-moisture algae system**

Natural water-binding properties of algae polysaccharides enable deep-layer water storage and long-lasting superior hydration.

- **Rich texture, light-weight feel with zero burden**

Melts instantly upon application, fast-penetrating with no oily residue.

- **Dual-directional regulation, suitable for diverse skin types**

While delivering deep hydration, herbal ingredients help reduce excess shine for oily-prone skin and boost water-retention capacity for dry-prone skin, achieving balanced skin condition.

Beyond Surface-Level Hydration for Instant Dewy-Glow Skin Algae Soothing Barrier Cream

Lab Code	BS14087
Appearance	Smooth white cream

Formula Breakdown

① Algae-gel moisturizing network, locks-in moisture without clogging skin

Spirulina Maxima Extract, rich in algal polysaccharides, forms a thin, breathable "algae-gel moisture-locking network" upon skin contact.

② Dual-channel soothing & repair, stabilize sensitivity at the source

Panthenol repairs the cutaneous barrier; Dipotassium Glycyrrhizate blocks inflammatory signals; Centella Asiatica Extract relieves vasodilation.

③ Light-rich emulsification system, melts into water-like finish with no oily residue

Breaks upon skin contact to release water; oils spread evenly without clustering. Delivers deep nourishment with zero sticky residue.

Formula Advantages

① Gradient moisturizing network — outer-layer moisture-locking × inner-layer water-storage

Layer-by-layer moisturizing effect without heavy oily build-up, for long-lasting nourishment and non-occlusive comfort.

② Immediate soothing × long-term repair — actively interrupt sensitivity pathways

Quickly eases instant discomforts such as redness and stinging; reinforces barrier structure deep within stratum corneum to reduce recurring sensitivity triggers from the root.

③ Light-rich emulsification system — melts on contact, suitable for both dry and oily skin

Offers the nourishing depth of cream while retaining the refreshing finish of lotion.

Manufactured by PharmaC Direct

Topical Botox-Like Peptide Complex Wrinkle-Reducing Cream

Lab Code	BS14020
Texture	White cream

All-round anti-wrinkle & firming effect,mimicking in-salon professional treatment

Formula Breakdown

① Synergistic multi-peptide triple-action complex

Skin-structure-engineer "micro-needle" (Palmitoyl Tripeptide-5); EGF-like "Thermage-mimic" (Oligopeptide-1); topical "Botox-like" ingredient (Acetyl Hexapeptide-8).

② Synergistic barrier repair for amplified performance

Reduce actives-induced irritation: Dipotassium Glycyrrhizate, Phytosterols; lipid-like repair agents: Squalane, Hydrogenated Lecithin etc.; wrinkle-fighting "skin-moisture reservoir": Xylitylglucoside, Xylitol, Anhydroxylitol.

③ Auxiliary improvement of skin aging signs

Antioxidation: Spirulina Maxima Extract delivering photo-facial-like effect;
anti-inflammation: Potentilla Chinensis Extract simulating red-blue-light therapy benefits.

Formula Advantages

① Optimal alternative to Botulinum Toxin, precise anti-aging & wrinkle mitigation

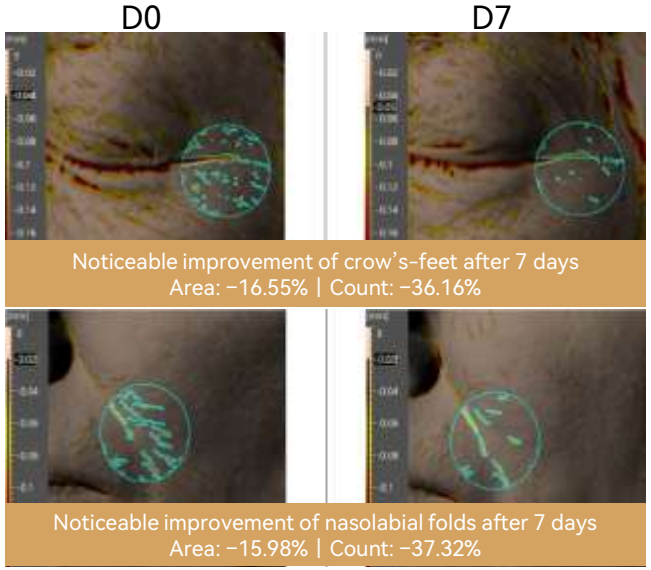

Works on similar principle as cosmetic injectables, yet safer with no side-effects and zero downtime.

② Multi-peptides targeting three aesthetic-treatment outcomes, triple benefits from one cream

Skin-structure reconstruction, damage repair and nerve-regulation in one application. Combines Thermage-style repair & anti-aging, Botox-like wrinkle smoothing and micro-stimulation effect, suitable for long-term use.

③ Barrier-soothing base function, high-efficacy anti-aging with zero side-effects

Delivers anti-aging benefits while soothing skin and reinforcing barrier, for healthier skin and longer-lasting results.

Cellular-Level Age-Reversal, Power-Up Your Skin's "Perpetual-Energy Engine" — Algae-Sourced Energizing Anti-Aging Cream

Lab Code	BS14086
Texture	White pearlescent cream

A "liquid anti-aging goldmine" infused with abundant algae-derived bio-energy

Formula Breakdown

① Instant brightening · Luminous skin glow — Glabridin, Nicotinamide Adenine Dinucleotide (NAD+), Spirulina Maxima Extract
Delivers natural radiance upon application. Long-term use boosts inner-skin luminosity, achieving cultivated glow instead of superficial coverage.

② Soothing & stabilization · Reinforce skin barrier — Dipotassium Glycyrrhizate, Patented Oat Beta-Glucan, Panthenol
Covers the full chain: instant soothing → inflammation inhibition → barrier reinforcement. Quickly calms redness and stinging, builds thicker barrier with use, suitable for sensitive skin.

③ Firming & anti-wrinkle · Lifted facial contour — Acetyl Hexapeptide-8, Palmitoyl Tripeptide-1, Bakuchiol, Soluble Collagen
Five-pronged anti-aging approach: relax expression lines, replenish deep-layer collagen, tighten basement membrane, energize mitochondria, and lift overall facial contour.

Formula Advantages

① Light-rich cream texture, delivers luminous finish on contact
Built-in luminous effect instantly boosts skin translucency; soft skin feel without stickiness.

② 4-in-1 synergy: moisturizing × brightening × soothing × anti-wrinkle, no compromise
Covers four major scenarios: daily hydration, post-overnight-repair brightening, sensitive-skin soothing, and early-aging prevention.

③ Source-level energy boost plus structural repair, anti-aging beyond surface layer
Supports cellular energy, enhances mitochondrial metabolism, modulates aging-related gene expression, empowering skin with self-rejuvenating capacity.

3-D repair system covering the full sensitivity pathway
Quadruple-repair matrix: Soothing × Repair × Regeneration × Stabilization

【Instant Soothing】 4-tert-Butylcyclohexanol (1609) blocks TRPV1 receptors to rapidly relieve burning and stinging sensations; Hydroxyphenyl Propamidobenzoic Acid inhibits histamine release for immediate redness relief; Madecassoside synergistically calms flushing and discomfort.

【Barrier Replenishment】 Panthenol boosts lipid synthesis in stratum corneum; Ceramide NP directly replenishes core intercellular components; Squalane mimics skin lipids to fill structural gaps. Triple-force “brick-and-mortar” physical barrier repair.

【Source-Level Regeneration】 Fibrin activates fibroblast migration and proliferation; soluble collagen provides matrix support; Spirulina Maxima Extract accelerates cellular metabolic renewal to drive tissue regeneration from within.

【Long-Term Stabilization】 Lactobacillus / Algae Extract Ferment regulates skin micro-ecology; Oat Beta-Glucan and Phellodendron Amurense Bark Extract strengthen skin stress resistance for lasting skin homeostasis.

Visible real repair: improvement of sensitive micro-papules

Improve compromised skin base, no sensitivity rebound after 7-day discontinuation

Post-irritation flushing **-26.89%** Barrier resilience **+66.8%**

Formula Advantages

- **Oil-in-water “water-melting” texture — occlusive yet non-clogging, nourishing without heaviness**

Delivers strong occlusive moisture-locking power alongside lightweight spreadability. Gentle for sensitive and compromised skin with no burden.

- **Four-dimensional barrier-repair logic — multi-layer coverage from surface to deep layers**

From outer-layer protective sealing to source-driven regeneration; from instant redness calming to long-term stable skin condition.

- **Dual-track: active repair + passive protection**

Oil-in-water high-occlusive film isolates external irritants. Repair ingredients accelerate keratin renewal and barrier reconstruction, forming a closed-loop mechanism: protection first, then restoration.
